National Network of Schools in Partnership is a national organization working to improve the educational outcome of all students through enhanced service learning and community engagement programs. Mark your calendar to join us for an active discussion about how educators across the country are working together to create new, authentic service opportunities for young people.

Learn from a group of panelists working on individual partnership programs across the region and connect with others who are invested in community engagement, reciprocal partnerships and real-life learning experiences for all students.

Share your stories and become inspired to enhance and further your work!
